

Welcome to the World of Fasteners from...

# DinStock™

## THREADED RODS 8.8, 10.9 & 12.9

Din.975, 976

With a stock range of lengths for immediate shipment including 1 meter, 2 meter and 3 meter bars, up to 76mm diameter. Larger diameters available to order up to 100mm diameter.

We also offer a cut-to-length service for shorter sizes including angled cut studs for use in resin anchorages, which are available in a wide range of coatings.

Trapezoid threaded rods and lead screws, Metric Fine, BSW, BSF, UNC & UNF thread forms in most material grades including stainless A2 & A4.

In addition, we also cater for all types of Petro-Chemical Stud-Bolts and Threaded rods; B7, B7M, B8 and many more, in both metric and imperial diameters.

## TIE-RODS & STUDS 4.6, 5.6, 8.8, 10.9 & 12.9

Din.938 / 939 & Double Ended Rods

We can manufacture almost any diameter and any length\*, including the complete supply of turnbuckles, fork and eye fittings, clevises and joint connectors.

Available in most coating including Hot Dipped Spun Galvanized up to 1800mm long for 20mm diameter and above.

Longer lengths can be manufactured by us applying the thread on pre-galvanized bars with hand-applied coating after threading.

\*All bar length are generally 6,000 / 6,500mm long – longer lengths to order.

### DinStock™

Our website offers you details on the specification and use of tie rods, studs and allthreads and their associated products.
