THE MOST COMPREHENSIVE STOCK PROFILE IN THE INDUSTRY

Quality

We conform to the following standards:

ISO9001:2015 • EN14399 • EN15048

National Highways Sector Scheme 3

Manufacturing

Dinstock manufactures a broad range of standard 'Cold Formed' and 'Hot Forged' fasteners in most materials, head styles, and grades from M10 to M100 diameter.

We have in-house manufacturing capability for roll and machine threading, CNC machining, as well as hardness, rotation and tensile testing.

Sectors

The company services a variety of markets including construction, structural steel works, civil engineering metalworking, automotive and many other sectors.

We have an inventory of more than 50,000 different line items, and with our considerable manufacturing capabilities, our customers can rely on a quick response and prompt delivery.

Service

We are dedicated to providing quality products and services, on time and at a competitive price.

Experience

Dinstock is a leading manufacturer, stockist, and importer of industrial fasteners and associated products.

With a history spanning over 25 years, Dinstock has emerged as a leader in the fastener trade.

Dinstock is a one-stop destination for consumers and wholesalers in the UK and abroad.

Turnkey Solutions

Dinstock can supply turnkey solutions for your requirements including the following services; welding, fabricating and specialist finishings.

Same or next day
Delivery Available

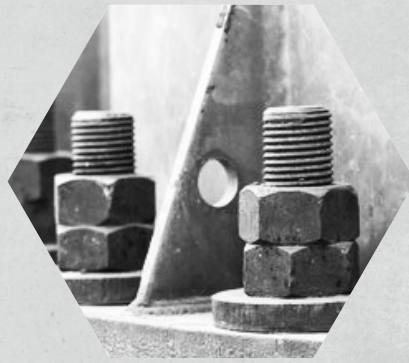

Export

We ship to most European customers on a daily basis using specialist freight forwarders, in most cases we can offer a 24/48 hour service.

UK Delivery

We can offer a Nationwide delivery service from a single bag to multiple pallet loads, normally on a Next-Day service to most parts of the UK. We also offer additional AM and timed delivery services to meet urgent requirements. For details, contact us using the details below.
